I'd like to transcribe an audio or video file.

To transcribe your audio or video file, simply head over to [TurboScribe's website](#). Once you're there, you can upload your file for transcription. If you don't already have an account, you can create one for free. You'll be able to transcribe up to 3 files (up to 30 minutes each) per day with the free tier.

After you upload your file and the transcription is ready, feel free to come back here and I'll help you do all kinds of cool things with your transcript, like summarizing it, answering questions, or even turning it into content like blog posts!

Let me know if you need any help along the way!
